SKINMASTER™ 10

MICRONEEDLING DEVICE ... DOES PERMANENT MAKEUP TOO!

I found the SKINMASTER in 2012. What a pleasant surprise! The power and ease of micro-needling and permanent makeup in a single unit. Fast and efficient over large areas the

Skinmaster #5 Round; One Time; Kolorsource Black Ice Pigment

12-pt head makes quick work over acne scars, wrinkles and scars. And, with many other configurations you can do permanent makeup too! Power? Not a problem with 10 speeds and the fine

German made motor. No backflow like ordinary cartridges.

CHOICE of CARTRIDGES• 12 point for microneedling; 1, 3 and 5 round and 4 and 6 round plus Dr. Dixon's patented two edge SLOPE® needle. "ZERO BACKFLOW" Membrane (Pat pending). Crystal clear cartridges. *STAY COOL Handpiece stays cool no matter how long you work! You will too.*

Work with or without a Cord

SKINMASTER™ DUET

CORDLESS 5-SPEED HANDPIECE TAKES ALL CARTRIDGES.

See-through Needle Cartridges

Sensor Cradle
Place handpiece in cradle and it shuts off. Lift handpiece and it turns on. No foot pedal needed.

Precision Depth Dial
Dial your depth from 0-2.0mm

Power Button
Press and hold to start handpiece. Press to increase speed. Place in cradle to stop. When you are finished, press and hold button again. The handpiece will power off. Choice of 5 speeds.

- Kit**
- Lithium ion Battery
 - Wall power unit
 - Uses either 110 or 220 volt
 - European and USA
 - Wall plug adapter for USA
 - Blue dial-a-depth indicator

See page 10 for needles and pricing

Good news if you're sick and tired of machines that are unreliable, unsafe or out of your budget. Meet the SkinMaster™ Duet!

1. You will love the Skinmaster Duet, the CORDLESS Freedom model. Here you see it in it's cradle that turns it on and off automatically. The cord is optional and can be used to charge the battery or to run the machine. The battery lasts 4 hours on slow speeds and 2 hours on high speeds. Charge until "green light" comes on, then remove. Do not leave on charger overnight.
2. Do BOTH Microneedling and Permanent Makeup with the Duet.
3. BACKFLOW PROTECTION: The cartridges have a patent pending on the backflow prevention sleeve. This gives your client the protection they deserve.
4. Seven needle cartridges are available for your Skinmaster. Needle sizes: 1,3,5 point round, 4,6 flat for permanent makeup and 12 point for Microneedling.
5. You can DIAL YOUR DEPTH for the needles right on the handle. You'll soon learn what your favorite needle depths are. The range de-

- signed is from 0-2.0mm needle depth. You'll use .75-1.0mm a lot for both permanent makeup and microneedling. I put it out a tad more for wrinkles.
6. Choose your speed: 1-5
7. SkinMaster Duet with the Blue Ring: \$1400. I use this cordless version because it has a cradle that you put your handpiece into and the power shuts off immediately. When you lift up the handpiece to work, the machine starts right up. Amazing. German Motor. Warranty: 1 year replacement warranty. Does not overheat. Can use with cord or cordless.

Tattoo Artists love 5 Speed; Budget 3-speed

SKINMASTER™ 5

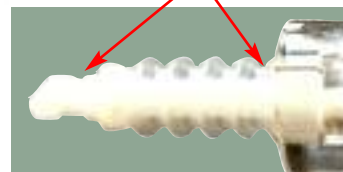

5-SPEED HANDPIECE TAKES ALL CARTRIDGES.

You'll love the feel of this handpiece. Just pick it up, plug it in, twist in the safety cartridge, turn it on, dial your needle depth and you'll be off and running. Choose your power and speed setting by pressing the lighted button. The motor stays cool for hours and runs as soft as a whisper. It is powerful so you can use all the needle cartridges PLUS the 12 point Microneedling head. The power is in the motor inside the handpiece. It's what's inside that counts! No back-flow with patented cartridges.

2.2 oz handpiece weight

SKINMASTER™ 3

3-SPEED HANDPIECE FOR 1,3,5 ROUND NEEDLES

On a budget? No problem with the SkinMaster 3. This feather-weight handpiece has lots of power to run permanent makeup needles. It sports a smaller motor but handles the cartridges with ease. This is a great little machine. I like the 5-round needle the best for eyeliner. Press and hold the ON button for 2 seconds and you're good to go. Want a footpedal? We can get one for you. This machine doesn't spit or splatter pigment and it has the patented "no back-flow" cartridge design so important to prevent cross contamination. Full, one-year warranty.
